■ This Month ■ Last Month

HIGHLIGHTS

- Lower volume in Q4 was expected due to new tariffs coming into effect
- OTD improvement possible through deep dive into pick detention and tendering lead time
- Our partnership on reducing your incidental costs is starting to show progress
- Convoy expects CO2 saved per month to increase as we turn on lanes with high load batching/empty mile reduction power

SPECIAL TOPIC

CARRIER SAFETY

Convoy's Safety and Compliance Program has produced a carrier network where our driver's outperform the industry average predictive crash rating by 15% and with 1/20th the claims. In this month's special topic, you will learn more about how Convoy ensures a high safety threshold, the benefits to your organization and additional metrics we provide to support your safety culture.
